

## 5 MILLION METRES OF SINTAKOTE STEEL PIPE

The Brisbane steel pipe manufacturing facility recently celebrated the despatch of the final pipe for the Mt Miller water pipeline project in Gladstone. The special significance of this pipe was that it brought the total length of SINTAKOTE pipe that has been manufactured to over 5 million metres.

SINTAKOTE has been in use since the early 1970's and has replaced all other coatings for the vast majority of steel water supply pipelines in Australia.
